

### Score Form Instructions

Yes, this year we have a “new and improved” score form! The score form is a bit different from the version that was used to update visitors. The following information is important to share with visitors to guarantee success with the new form!

Attention all VISITORS and Associate VISITORS! The official score form looks different from other forms used in trainings and past summers! **The 10 most important things to remember about the new score form are:**

1. The signature portion of the form **MUST** be completed for the visit to be official. Score forms without the signatures cannot and will not be processed! Make the visit count – collect the signatures. Please record all signatures in ink.
2. Complete the profile as always and return it with the score form.
3. Comments can be made in the comment sections following the group/set of standards being scored. Please remember to initial comments using ‘VIS’ for the visitor comments or ‘CD’ for the camp director comments. Use additional paper if necessary. Please record all comments in ink.
4. Use pencil to score just in case you make an error.
5. Mark an X over “yes”, “no” or “DNA” to indicate your compliance decision.
6. Mandatory standards are ***bold and italicized***.
7. ‘W’ indicates a written standard and is only informational. **You do not need to mark the “W” box.**
8. Refer to the instruction section on the score form for clarification regarding other abbreviations you may see on the score form.
9. Indicate the camp name and number on each page in the space provided for you.
10. Indicate all modes you are scoring for the camp being visited.
