CAMP GIVES A WORLD OF GOOD®

Help more children experience a world of good by supporting the American Camp Association Camp Scholarship Program.

Research has demonstrated the numerous, positive benefits that a camp experience has on children. **They grow in self-reliance, independence, communication, and self-esteem—to name only a few of the values.** In addition, we know that all children benefit from being in a diverse community of economic, ethnic, and cultural backgrounds. If you have experienced the positive benefits of camp yourself or through a child, you know that through the power of camp, these young people help build a world of good themselves with the talents and skills they were able to cultivate for themselves in the camp setting.

Through the American Camp Association Camp Scholarship Program, you can support your favorite private independent camp with a tax-deductible donation to the American Camp Association. Our tax-exempt status allows you to support the camp you know and love and keep its enrollments strong so that all campers can benefit from the camp experience.
