

Six letters Exercise

Cross out six letters so that the remaining letters, without changing their sequence, spell a word that we are all familiar with.

DEBRIEF:

Perception

- Everyone has their own personal way that they perceive what they hear.
- Important to recognize this when we speak with parents, campers and other staff members.
- Need to be sensitive to how others may perceive what we say.
- This is particularly true with humor. Need staff to understand this as campers don't understand the same way and don't process/perceive it the same way, especially with sarcasm.

Teamwork

- Did anyone who figured out the answer offer to help others?
- Did anyone struggling ask anyone who figured it out for help?
- Need to support/help each other
