

MULTI-SITE CAMP VISIT – What does this mean?

You are visiting a camp/program that has one ACA ID number for multiple locations that are included in the accreditation process.

- It is important to contact your Standards Manager/Staff to discuss the sites to be visited. **The criteria for 2021 is different than prior years.**
- Because multi-site camps share one ACA ID, a score form is completed for each site visited, and then all scores are combined on one master score form. (We have enclosed enough score forms to cover this.)
- When you compile scores onto the master score form, ensure that any “NO” at any site/location is reflected as a “NO” on the master score form.
- If there are standards that apply to the entire camp, with no differences based on location, it is acceptable to score those standards only on the master score form.
- Ensure that you return all the score forms for sites visited as well as the master score form.
