- **Natural color** connotes sustainability
- **Tree free**
- **Ⓚ Kosher certified**

USA !! GROWN & MADE[®]

Our sugarcane fiber is
100% grown and harvested
in South Florida

Florida farmer proud

Tellus is a packaging company based in Belle Glade, Florida. We recycle leftover sugarcane fiber from the sugar milling process and convert it to packaging and foodservice products such as plates, bowls, and take-out containers.

Tellus is a newly launched company, jointly owned by Florida Crystals Corporation and Sugar Cane Growers Cooperative of Florida. Our owners are made up of more than 45 mostly family farms, who have been proud to carefully cultivate sugarcane and vegetables in South

Florida for generations. Our farmers not only

produce the sugarcane fiber for our eco-friendly

products but also the fresh, homegrown produce that fill our plates at your barbecue.

At Tellus, our products come from the Earth and are returned to the Earth... We just borrow them for a short time.

Technology and Sustainability

Our state-of-the-art manufacturing facility is located adjacent to the sugarcane fields and next to the Cooperative's sugar mill, which means we have minimal shipping and handling, and less strain on the environment. We are also able to trace the origins of our products back to the fields from which they grew. **Our products are 100% grown and made in the USA.**

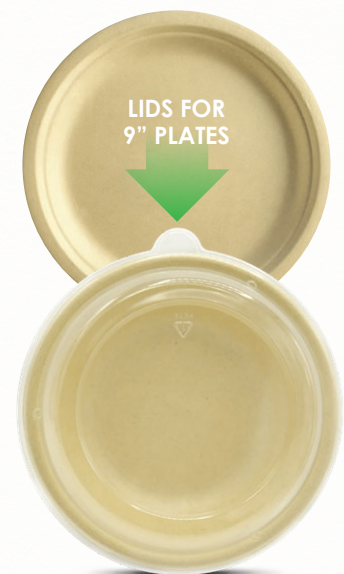

Our facility runs primarily on renewable biomass power provided from the sugar mill and solar power making it one of the most **efficient and environmentally sustainable manufacturing facilities of its kind**. Our new office building is in the same area and is LEED-certified®, LEED Silver®.

From the plants we grow to the products we create, we consider the impact to our planet in everything that we do. **Tellus...Plant...Product...Planet.**

Put a Lid on it

Tellus flat and domed lids are made in the USA of a minimum of 50% recycled PET and are #1 PETE recyclable. Our lids are completely transparent and seal tight to lock in freshness and flavor—excellent for takeout, delivery and room service.
